Duty Officer/Responder Name: Rothouse	NRC Report #: 971150	Hotline Log DataID: 953132
<b>Action Information</b>		
<p><b>Description:</b> I contacted the RP (Con Edison) &amp; spoke with their environmental person (Dennis Michaelides) who advised me that they were checking the situation to see if any spilled material, which contains PCBs, reached the storm drain, catch basin or manhole feeder. I asked him to call me back asap with his findings.          I then called the NY DEC (Mr. Dugsley) to see if they were planning to send someone out to take a look at the situation. It turns out that they were not even aware that the "waste oil "contained PCBs. I suggested that since the RP was not sure that any got into the storm drain, etc. , &amp; that the release has already been secured &amp; the c cleanup under way,that we wait till I hear back from him.</p>
